∴ Workshop for plastic and visual artists, of any age or nationality, to facilitate the sharing and communication of expertise and experience in artistic and cultural creation.

∴ The artists will live together in Torre de Nossa Senhora das Neves: a very inspirational place for creativity (painting, sculpture, mural, video, photography, live performance, props and stage installations ...), a very appropriate atmosphere for conversation, reflexion, and analysis. The rich natural environment provides close contact with key elements to artistic activity: Lush natural surroundings combined with ornate human landscape, gardens and commerce. (rural, maritime, urban, types and customs of local and regional history, social elements ...).
